GOOD COMPANIONS.

It makes no difference, in
looking back five years, how
you have been dressed or
lodged, whether you have
had gardens or baths, have
been carried in a neat equipage
or in a ridiculous truck. These
things are forgotten quickly and
leave no effect. But it counts
much whether we have had good
companions in that time almost
as much as what we have been
doing.—Emerson.

With its big 3 7/8-inch bore
x 5-inch stroke FORTY
horse power motor, this
Studebaker rivals most of
the Sixes on the market
both in POWER and in
flexibility of operation. It
has driving, brute power
that masters any hill or the
roughest going you ever
met. And yet it is power so
marvelously adapted to the
economical of fuel as most
cars with much less power.

It's a motor that makes this
new Studebaker a wonder
to drive, and we'd just like
to have the opportunity of
taking you for a trial run,
anywhere you say, as long
as you say, as HARD as
you say. Come in today.
